PVC EXTRA CLING FOOD WRAP

From a tried and trusted brand comes a great product in an innovative pack design - OSO Food Wrap not only boasts extra cling power to make it ideal for applications in the demanding commercial environment, but three great pack features that will fulfil all user needs.

New Safe-T-Cutter

A non-blade cutting option to reduce the risk of injury in the busy commercial kitchen or other professional environments, the Safe-T-Cutter is a quick, efficient cutting tool that's easier and safer than ever before. Simply remove from inside the pack and attach it to the top.

Traditional blade cutter also included

For users who have become accustomed to the traditional blade cutter, this is included. The blade is protected by a cardboard cover which can be quickly removed for easy access, or retained for maximum safety if users prefer the Safe-T-cutter option.

New Improved Start Of Roll Sticker & Wider Pack Opening

An easy-to-remove Start of Roll sticker and wider opening on the top of the pack offers easier access to the OSO roll so end-users can be up and wrapping in a matter of moments!
